Extension to Safeguarding Policy - St Giles Church Codicote

For online meetings/services

- Those who join the session agree to be part of a live video call and will be visible to others in the group – unless they choose to be unseen.
- Participants must ensure that they are happy with Zoom's privacy policy before joining. <https://zoom.us/privacy>.
- To maximise security we send the link only to those who are on the church emailing list although each recipient may forward the link to someone they know. We also operate a waiting room. These measures ensure only those invited join our group.
- In joining the group participants agree to supervise their children at all times while they are on a live video call.
- There should always be a parent/carer visible on screen with the child. All participants should be appropriately dressed if enabling video.
- Recording of the sessions is disabled.
